With the passage of Build NC, North Carolina now has a strong plan in place to ensure our state's transportation and infrastructure networks will reliably carry our state into the future. Agribusiness Conference

October 2019

North Carolina's agriculture industry contributed \$84 billion to the state economy in 2016, representing 17% of the state's overall income. Ranked 8th in the U.S. for value of agricultural products sold, the agriculture industry is critical to North Carolina's reputation as an economic leader in the Southeast. However, farmers and agricultural businesses across the state recognize they must adapt to a changing workforce, evolving technology and the latest state and federal regulations to continue thriving within their sector. The NC Chamber's Agribusiness Conference addresses these issues to ensure the industry as a whole can keep its wheels in motion for the continued prosperity of the state.

Health Care Conference

Fall 2019

Since the NC Chamber Foundation released its *Roadmap to Value-Driven Health* study in 2016, strong gains have been made in the transformation of health care across North Carolina. With the overall goal of making NC a top 10 state for health care and health care value, industry leaders have been tirelessly exploring best approaches to the overhaul, which will significantly impact job creators, business climate and talent supply throughout the state.

This year's Health Care Conference will provide the latest updates on the drive towards value-driven health care: Where are we in the process? How do we reach the finish line? What are the implications for employers across the state?

Join us for this critical discussion; the more voices at the table, the more quickly we finish the race.

“This was a hard-hitting and frank assessment of the challenges to improving NC health care.”

Future of North Carolina Forum

December 2019

North Carolina expects to add nearly 2 million people by 2030. If that happens, North Carolina will become the seventh most populous state in the country. Are we ready? Do we have the necessary infrastructure in place? Will job growth keep pace with the growth of our population? Will our talent supply have the skills needed for the 21st century marketplace? Brought to you by the NC Chamber Foundation, this high-level event will address these questions and will help find ways to use our collective influence to shape our future.

“This event is a platform for effective economic development strategies and tools that we need to create a stronger future for North Carolina.”
