Ag Allies Conference

October 30, 2026 | McKimmon Conference & Training Center | Raleigh, NC

With a \$111 billion annual contribution to our state’s economy, agriculture helps drive a major share of North Carolina’s economic success — representing one-sixth of our state’s overall income. It is a powerhouse industry that continues to be a major employer for the state, providing jobs to 16% of employees in North Carolina. Ranked 9th in the U.S. for value of agricultural products sold, the agriculture industry is and will remain critical to North Carolina’s reputation as an economic leader in the Southeast. However, farmers and agricultural businesses across the state recognize that they must adapt to a changing workforce, evolving technology, and the latest state and federal regulations to continue thriving within their sector. The NC Chamber’s Ag Allies Conference addresses these issues to ensure the industry as a whole keeps its wheels in motion for the continued prosperity of the state.

Expected Attendance: 150-200

“The Ag Allies Conference was an insightful event which allowed partners from around the ag industry, financial sectors, and political spheres to join forces to help guide the future of agriculture in our state and worldwide.”
