

AN NC CHAMBER EVENT

Environmental Compliance Conference

JANUARY 26, 2023
DURHAM, NC

Bob Griffin, P.E.
Vice President of NC Operations
Shield Engineering, Inc.

Bob Griffin has over thirty-five years of experience in various aspects of wastewater treatment and utility management, focusing on industrial waste issues and pollution prevention/waste minimization. Mr. Griffin is recognized as a national expert in Federal Pretreatment Program development and implementation serving as instructor for the EPA National Pretreatment Training Program.

He has a strong background in training program development and implementation. Mr. Griffin has been involved in the startup of a statewide operator training program and a national water and wastewater security training program. Bob has also been recognized as a national expert in Water Sector Security. He is a national trainer for EPA's Vulnerability Self-Assessment Tool (VSAT*) software, training over 3000 individuals in past five years.

Mr. Griffin is currently working with a variety of industrial and municipal clients on Permitting, Construction, and Environmental Compliance including PFAS and other emerging contaminants.
