Jon Brown
Chief Information Officer
Information Technology Group – North Carolina Division
HCA Healthcare

Jon Brown is the Division Chief Information officer of HCA Healthcare's Information Technology Group in North Carolina. Jon is responsible for the Health Information technology within the North Carolina Division of HCA. He oversees the strategy, plan, and maintenance of NCD's Electronic Health Record, application portfolio technology infrastructure and innovation organization.

A 30-year veteran of Healthcare Technology, Jon joined the industry as a Network Engineer in the early 90's. He has served in a variety of leadership positions, most recently Division Chief Information Officer in the North Carolina Division. In this role, Jon delivers technology solutions across a range of HCA Healthcare's business areas, including inpatient, ambulatory, ambulatory surgery, cardiology, behavioral health, cardiology, orthopedics, and home health & hospice. Prior to his current role, Jon was the Chief Information Officer (CIO) of Mission Health Systems, a multi-hospital and clinically integrated network located in Asheville, NC. The CIO's focus was maintaining a strategic plan aligned with the goals of the health system. These responsibilities include, building out a data science team, built complex artificial intelligence and analytics programs supporting accountable care, risk-based contracting, and a clinically integrated network for the 18 counties in NCD's service area. The clinical integrated network leveraged a single shared electronic health record across all hospitals, clinical and ambulatory surgery centers as well as a revenue cycle platform capable of supporting standard billing processes and risk-based contracts.

Jon holds a Bachelor of Science in Electronics Engineering from Bob Jones University and a Master of Business Administration from Wake Forest University. He serves on the North Carolina Chapter of the Healthcare Information and management Systems Society as a board member, President Elect and coordinator for the NC CIO Roundtable.
