

Environmental Compliance Conference

FEBRUARY 5, 2020 | RALEIGH, NC

Kim H. Colson
Director, Division of Water Infrastructure
North Carolina Department of Environmental Quality

Kim is director of the Division of Water Infrastructure in North Carolina's Department of Environmental Quality and a Licensed Professional Engineer in North Carolina. The Division administers all the state's water infrastructure funding programs. As director of the Division he also serves as chair of the State Water Infrastructure Authority. He is also president of the national Council of Infrastructure Financing Authorities. He has been in the water resources industry for over 30 years working both with a privately-owned public utility and North Carolina's environmental agency.
