Ray Fakoury
Manager, Energy Services
Amazon Web Services

Ray Fakhoury is an energy policy expert focusing on renewable energy and sustainable infrastructure development. Currently serving as a Policy Manager at Amazon Web Services, he works to advance carbon free energy initiatives and shape energy policies across various U.S. markets. With experience spanning both public and private sectors, Ray has played key roles in expanding renewable energy opportunities and building strategic partnerships between industry stakeholders, nonprofit organizations, labor groups, and policymakers.

His career encompasses work with leading energy companies, policy advocacy organizations, and government institutions, where he has consistently championed the advancement of clean energy solutions. Ray holds a degree from the University of California Santa Barbara and serves on the boards of prominent renewable energy organizations, contributing to the broader conversation around energy transformation and sustainability.
