

AN NC CHAMBER EVENT

Building NC

APRIL 2, 2024

Robert L. Griffin, P.E.
Vice President of NC Operations
CDG, Inc.

Bob Griffin has over 40 years of experience in various aspects of wastewater treatment plant design and operations including residential and industrial wastewater treatment and Utility Management. Mr. Griffin is recognized as a national expert in Water Sector Risk Assessments and Federal Pretreatment Program development and implementation serving as an instructor for the Vulnerability Self-Assessment Tool (VSAT) software and the EPA National Pretreatment Training Program.

He is currently working on environmentally sound and economically feasible wastewater treatment alternatives for residential development in unserved or underserved communities to accommodate expanded work force housing that supports well planned expansion and environmentally sustainable growth of North Carolina communities. As an Environmental Biologist and Professional Engineer, he has a strong history of environmental protection in North Carolina.
