

AN NC CHAMBER EVENT

Education & Workforce Conference

AUGUST 8, 2024
RALEIGH, NC

Trent Hone
Vice President of Technology and Product Innovation
ICF

Trent Hone is Vice President of Technology and Product Innovation at ICF. He has over twenty-five years of technology and management experience. Trent is a leader in the application of complexity science to organizational design and has used his knowledge to deliver compelling technology solutions, foster innovation, and promote sustained organizational learning. Trent is currently the director of ICF's Generative AI Program, which is spearheading the effort to determine how best to use Generative AI technologies at ICF.

Trent is an award-winning author and accomplished speaker. He has been awarded the U.S. Naval War College's Edward S. Miller Prize and the Naval History and Heritage Command's Ernest M. Eller Prize. Trent's book, *Learning War*, was the U.S. Naval Institute's book of the year for 2018. Trent has shared his knowledge of innovative techniques and approaches in a variety of conferences and forums, including the U.S. Naval War College, the Johns Hopkins Applied Physics Lab, the Führungsakademie der Bundeswehr, and dozens of technology conferences. Trent holds a BA from Carleton College in Northfield, Minnesota.
