

Energy Summit

MAY 11, 2021 | VIRTUAL

Rachel Jones
Vice President of Energy and Resources Policy
National Association of Manufacturers (NAM)

Rachel Jones is vice president of energy and resources policy at the National Association of Manufacturers (NAM). Ms. Jones oversees the NAM's energy and environmental policy work and has expertise on issues ranging from energy production and use to air and water quality, climate change, energy efficiency and environmental regulation. She is a key voice for manufacturing on Capitol Hill, at federal agencies and across all forms of media.

Before joining the NAM, Jones was the environment and energy counsel for the U.S. House of Representatives Committee on Science, Space, and Technology, where she advised the Committee on EPA, Department of Energy, Department of the Interior, FERC, NASA, NOAA and the White House Office of Science and Technology activities. She served as a legal fellow for the U.S. Senate Committee on Environment and Public Works and as executive student notes and comments editor for the Energy Law Journal.

Ms. Jones's relentless drive has made her a powerful advocate for our members and a respected voice on the Hill and in the Administration on issues ranging from environmental policy to energy production to infrastructure and regulatory issues.

Ms. Jones has a B.A. from Oklahoma Baptist University and a J.D. from University of Tulsa College of Law.
