Brandon Hall Keener
Chief Executive Officer
JGA Space & Defense

Brandon Hall Keener is the Chief Executive Officer of JGA Space & Defense, an advanced-manufacturing company producing ablative composite nozzle structures for solid rocket motors supporting defense and space applications. He provides strategic and operational leadership for the business, guiding its growth, manufacturing performance, quality, customer execution, and organizational development in support of mission-critical propulsion programs.

Brandon is a transformational executive with more than 29 years of leadership experience across complex aerospace & defense manufacturing environments. Before joining JGA Space & Defense, he served as Vice President of Operations & Quality at Triumph Group and held multiple executive roles at Collins Aerospace / RTX, including Executive Director of Operations Strategy & Operations Excellence, Executive Director of Global Repair Strategy, and General Manager of Goodrich Rescue and Specialty Systems.
