

AN NC CHAMBER EVENT

Health Care Conference

SEPTEMBER 14, 2023
DURHAM, NC

Michael Martine
Director, Asset Engineering
IBM Technology

Michael Martine is an inquisitive, collaborative, and global ‘connector of dots’ whose leadership roles have spanned business and technology for the past 25 years.

Michael is currently the Director, Asset Engineering, a business and information technology executive in IBM’s Consulting division. He leads an extraordinarily talented team of several hundred professionals who build, enhance, and maintain IBM Consulting’s differentiated software Assets leveraging AI solutions across multiple business domains. These Assets represent the best of IBM Consulting’s intellectual property, co-created with clients, scaled from cutting edge IBM Research innovation and accelerated from recent IBM Consulting acquisitions.

Michael’s deep global experience includes his MBA in International Management from Thunderbird and studies at the Technical University in Berlin as well as his two-year expatriate assignment in Budapest, Hungary. He is a graduate of UNC Chapel Hill and the North Carolina School of Science & Mathematics. He holds a black belt in the Japanese To-Shin Do Ninjutsu martial art and is continuing his studies with his children.
