

2026 Environmental Compliance Conference

FEBRUARY 4, 2026
RALEIGH, NC

Kevin McOmber
EPA Region 4 Regional Administrator

Kevin's impressive 37-year career is distinguished by his dedication to community service and a deep commitment to environmental and municipal development. As a Professional Engineer (PE), he has led the design and execution of numerous large-scale public works projects across Georgia and the Southeast, focusing on sustainability, quality control, and cross-disciplinary collaboration. Notably, Kevin has been a trusted partner to local and state agencies, navigating complex permitting processes and fostering collaborative relationships that drive impactful outcomes. Prior to joining the EPA, Kevin served as Executive Vice President and National Community Practice Leader at CPL Architecture, Engineering, and Planning. Since joining the EPA Southeast Region in February 2025, Kevin has advanced EPA's Powering the Great American Comeback initiative across its five pillars by aligning regional program delivery; strengthening state, Tribal, and local partnerships; sharpening compliance and enforcement; improving efficient and transparent permitting; and directing community-centered investments to protect air, water, and land across the Southeast.
