

AN NC CHAMBER EVENT

Workplace Diversity and Inclusion Conference

JUNE 13, 2019 | RALEIGH, NC

Jillian Munro
Head of Technology
Fidelity Digital AssetsSM

Jillian Munro is head of technology for Fidelity Digital AssetsSM, which provides enterprise-grade digital asset solutions for institutional investors, joining the company in September 2018. Ms. Munro also serves as a Regional Site Leader for Fidelity Investments' North Carolina region, helping the region thrive as a talent, community and innovation leader in Research Triangle Park.

Previously, Ms. Munro was senior vice president of Resiliency & Business Engagement for the Enterprise Cybersecurity organization at Fidelity Investments, where she was responsible for ensuring alignment between the firm's business priorities and the Cybersecurity agenda.

Prior to joining Fidelity, Ms. Munro was a managing director and chief technology officer for Legal at JP Morgan Chase. She was responsible for the end-to-end technology strategy and data protection for the Legal practice, as well as eDiscovery operations for the firm. She also served as the global technology lead for Resolution & Recovery. Ms. Munro began her career at Andersen Consulting providing technology architecture and strategy consulting services to clients in telecommunications and financial services. Subsequently, she spent a number of years managing technology for the control functions at Lehman Brothers. She holds several patents and patents pending for systems and systems methods.

Ms. Munro earned a BSBA in accounting from Bucknell University and an MA in East Asian Studies from George Washington University.
