Scott Nunn is a facilities engineer with Novo Nordisk, where he has worked for more than a decade at their manufacturing hub in Clayton. He's a product of the North Carolina Community College System and his true passion is making young people aware of their rewarding futures in life sciences. Since 2019, he's been a leader in the innovative, public-private collaboration between Johnston County Public Schools, Johnston Community College and local business chambers that have successfully exposed thousands of students to careers they may never have known were right in their backyard. The program has become a model. Mr. Nunn serves on the Board of Directors for the Triangle East Chamber of Commerce and as Chair of its Workforce Development Committee.
