

Environmental Compliance Conference

FEBRUARY 3, 2021 | VIRTUAL

Jim Spangler
President
Spangler Environmental, Inc.

Jim Spangler is President of Spangler Environmental, Inc., a land development and water resources services, permitting, and litigation support consultancy operating in the Raleigh, Charlotte, Myrtle Beach, Charleston, and Tampa/Ft. Myers markets. He obtained his master's degree from Duke University on the late 1980s and has been directly involved in consulting to private development, industry, energy, homebuilding, and legal clients in North Carolina since 1988. He has over 38 years of in-the-field practical experience in the land development/environmental compliance sector of economic development. He oversees technical and administrative staff implementing wetland and stream permitting, sediment/erosion control inspection/construction/compliance, air emissions testing, environmental due diligence investigations, stormwater infrastructure management programs for HOAs, and contaminated site cleanups throughout the Southeast US. He is an EAA-Certified Environmental Inspector, a NC Accredited Asbestos Inspector, holds a certification from NCCES/NC State BAE in Stormwater Inspection and Maintenance, holds current EPA Method 9 Visual Emissions Measurement Certification, and is a NCDOT-certified Level III Erosion Control Inspector. He is currently a Member of the Franklin County Industrial Facilities and Pollution Control Financing Authority, Chair of the NC Bar Association Environment, Energy, and Natural Resources Council's Federal/State Environmental Rules and Policy Committee, and is the only person ever elected for a fourth term to the Board of Directors of the National Association of Environmental Professionals. His company is a Cornerstone Member of the NC Chamber.
