Founded in 2015, Improved Nature® is a B2B plant-based food company. The Company's management team has broad capabilities in commercial food production and has developed a proprietary manufacturing process to make its base products with only two ingredients - water and non-GMO plant protein concentrate. The base products can then be used to produce better for you, clean label ingredients and products including crunchy and chewy snacks and sustainable alternatives to animal proteins. The Company's first FDA certified plant opened in June 2017 in Garner, NC. To learn more, visit www.ImprovedNature.com.
